December 29, 1999

AMENDMENT UNDER 37 C.F.R. § 1.111

Hon. Commissioner of Patents
and Trademarks
Washington, D.C. 20231

Sir:

In response to the Office Action dated October 1, 1999, Applicants respectfully
request that you reconsider all rejections of the claims in view of the remarks presented in
this Amendment. Please amend the application as follows:

IN THE CLAIMS:

Amend claims 1, 2, 5, 6 and 11 as follows:

RECEIVED
JAN -4 2000
FC 2800 MAIL ROOM

1. (Amended) A coated optical fiber comprising at least one radiation-cured layer
and an optical fiber substrate,

wherein said radiation-cured [at least one] layer has been cured by exposing said [at
least one] layer to [low power] energy less than about 125 kV of electron beam radiation
effective to substantially cure said at least one layer but substantially avoid degrading said
optical fiber substrate.
